- + three new colours
- + Norit now available for Kids too!

OPTIMUM FREEDOM OF MOVEMENT

NORIT

PLANAM
Fashion for your profession

Elastic insert
with 4-way stretch

FREEDOM OF MOVEMENT AT ALL LEVELS

Made for use in all professions that require maximum freedom of movement – that is what makes our Norit range stand out. A collection that reinterprets the term ‘flexible working’.

In countless professions, freedom of movement is an absolute must. Accordingly, flexible clothing is required that does not restrict you in anything you do. Our solution: Norit, the specialist in workwear-movement. Elastic 4-way stretch-inserts follow every movement. Lightweight yet robust blended fabric is comfortable to wear and suitable for use on any task, whatever the weather. The variety of models and colours is also impressive – the right range for every profession and every taste.

IT FOLLOWS AT EVERY TURN

4-way stretch-inserts
The distinguishing feature of PLANAM's flexible Norit collection for maximum freedom of movement

If freedom of movement at work is a top priority, our Norit range is the best and most flexible companion for you. Our styles throughout the collection feature smart stretch-panels. These little helpers mean you can move up and down freely in your everyday work and provide you with a maximum of freedom.

Perfect fit, maximum comfort, maximum freedom of movement – these are the distinguishing features of the work trousers in our Norit range. Nylon also provides the necessary robustness in areas that are subject to particular stress.

Perfect fit
Stretch-inserts on the waistband for the perfect fit

Elastic inserts in the crotch
For unrestricted freedom of movement

Elastic insert with 4-way stretch

ONE COLLECTION FOR ALL

Norit also cuts a fine figure when it comes to fashionable appearance – whether for women, men or kids.

Norit's flexibility is also demonstrated by its diversity. Numerous models and colour combinations from the all-rounder PLANAM range ensure that everyone can find the right workwear for them – depending on their profession and taste. Here, the gardener will find what he is looking for, as will the craftswoman or the construction worker.

Norit convinces with practical features and modern design – suitable for every industry and taste. What's more, the wide-ranging collection leaves nothing to be desired.

Ladies' jacket
Side pockets with reliable zip

Ladies' waistband trousers
Reflective appliqués provide highlights

STANDARDS & CERTIFICATION

DIN EN 14404 KNEE PROTECTION FOR WORKERS KNEELING DOWN

Working in a kneeling position creates constant pressure on the knee. Knee protection is designed to distribute the forces produced evenly across it. In addition to this, it is designed to prevent injuries or damage caused by hard surfaces, small stones or similar objects lying on the ground.

Knee protection is subdivided into 4 types:

- Type 1: Knee protection that is separate from clothing and fastened to the leg.
- Type 2: Pads inserted into pockets on trouser legs or permanently attached to the trousers.
- Type 3: Equipment that is not attached to the body.
- Type 4: Knee protection forming part of a unit with additional functions.

In addition to this, there are three performance classifications:

- Level 0: No protection against punctures.
- Level 1: The knee protection is suitable for even ground where there is no risk of objects over 1 cm in height.
- Level 2: The knee protection is for use in challenging conditions, such as for example when kneeling on stones in mines or quarries.

The PLANAM knee pad product no. 9901027 is certified as Type 2, Level 1/ Level 0 knee protection. This certification only applies in conjunction with PLANAM trousers, dungarees or overalls and cannot be transferred to other products.

THE OEKO-TEX® STANDARD 100

The OEKO-TEX® Standard 100 is an independent testing and certification system for raw, intermediate and end products for textiles from all stages of processing. Examples of certifiable articles are raw and dyed/refined yarns, raw and dyed/refined woven and knitted fabrics, ready-made articles (garments of all types, home textiles, bedding, terry towelling, toys made of textiles and many others).

Tests for harmful substances cover:

- + substances banned by law
- + substances regulated by law
- + chemicals that are known to be potentially harmful to health (but are not yet regulated by law)
- + healthcare parameters in their entirety, the requirements go well beyond existing national legislation.

Why OEKO-TEX®?

The OEKO-TEX® Standard 100 was developed in the early 1990s as a response to the need of consumers and the general public for textiles that do not pose a risk to health. Negative headlines such as "Poisons in textiles" were widespread at the time, labelling all chemicals used in the production of textiles as negative and harmful to health.

Yet the demands made of modern textile products cannot be met without using certain chemical substances. Fashionable colours, easy care, long life and many other functional properties are demanded of textiles today and are, to some extent, and depending on their intended use (e.g. for professional and protective clothing), quite indispensable.

UV PROTECTIVE CLOTHING WITH INTEGRATED SUN PROTECTION

The largest organ of the human body is the skin, and it is exposed to great danger in summer. UV rays from the sun can increase the risk of skin cancer. Standard textiles are radiolucent, providing insufficient protection.

PLANAM's UV-protective clothing gives guaranteed certified safety. Awarded UV protection certificates "PROTECT 80" and "PROTECT 40", this range guarantees maximum prevention. Just like for sunscreens, the figure indicates the protection factor for spending longer in the sun safely. Our PLANAM models allow the wearer to remain in the sun 80 or 40 times longer than those without protection. With their integrated sun protection factor, the finished garments provide the skin with optimum protection. Those with sensitive skin can stay in the sun longer without having to cover themselves in sunscreen. It is important to know the individual skin type in order to determine the individual's protection time (length of possible exposure to the sun without risk of skin damage). The UV protection factor specified (e. g. Protect 80) gives the factor by which the individual's protection time can be extended just by wearing these textiles.

PERSONALISATION IN NEXT TO NO TIME

Workwear is advertising space for your logo and acts like a business card for your company. Personalisation ensures a recognisable and positive company image. Our finishing service brings your message to a wider audience in a customised, professional and fast manner.

PLANAM Individual specialises in personalising your workwear. From reflective appliqué to transfer prints and embroidery, we offer multiple personalisation options of the highest quality. Whether you need small quantities for handcraft businesses or large runs for industrial companies – our team of experts are on hand to provide you with personal advice and detailed information about the optimal finishing types for our products. This also includes finishing options with methods specifically adapted to the certification requirements of certified protective clothing.
